

ULTIMATE COMMUNICATOR

Cloud Service that makes Contact

Connecting you to thousands of people through call, text and email.

Easier - Just pick up any assigned phone line, dial your assigned subscriber number, press one trigger number and hang up. The messages can be sent by text, email, as a telephone call, or all three.

Faster - Each message is transmitted second by second until the list is complete, or the time can be spread out, and then you get access to a report of the actions taken.

Better - Pricing low enough for any budget. Simple operation; by using the "Ultimate Portal" & your current database. Now your Connected using the latest technology.

The Challenge – *communicate and not complicate*. Provide any business with a rapid message system at a low monthly rate. Then provide this simple foundation but allow practical options for expanding needs

The Turning Point – *Ultimate* found a way to send messages by text, email, and telephone calls without any hardware or software!

The Execution – the subscriber dials the assigned phone number from an authorized phone line, and the predefined message (text, voice or audio, and emails) is delivered to the predefined lists.

The Result – verbal example – [audio message](#)

That was the beginning; from that, we expanded to:

- **Appointment reminders** – (by text!) for clinics, salons, deliveries, legal, consulting & accounting firms, scheduled maintenance, board meetings, web conferences, live transfer of audio calls
- **Urgent messages sent** – cancel practice, delay services because of weather, remind customers of payments due, shipment status, deadlines like the end of a promotion
- **Recruiting for help** – substitute teachers, volunteers, additional shift workers, donations, reminders to vote or show up for support
- **Filling** the seats, hours, or auditoriums – **promote** restaurant specials, off-season service specials, **send** last-minute incentives.
- **Analytics** now with Ultimate Communicator, gathering agent data is easy. Meaningful feedback to managers leads to better performance and more profit.

3 easy steps:

- 1) An agent transfers a call to the authorized number.
- 2) the Ultimate Communicator then asks the questions and documents the results.
- 3) Reports are delivered to management to drill down as needed to improve training, target marketing programs and increase or decrease staffing.
