texting for business without the pain...

Make business life easier. Texting is the preferred form of daily communication but:

- ✓ It needs to be more like an email
- ✓ We need to see the text history
- ✓ We need to add others to the message or replies
- ✓ Plus, it needs to work with my computer, tablet, or phone
- ✓ Access needs to be by multiple staff members
- ✓ And we need to add different groups

SimpliFYI is what you need, and we can use your primary business line as the caller ID address. (If you wish)
